Arisa is now Live!

Arisa Alpha version is now live. In this project, we explored Dialogflow (Google's AI-powered chatbot. The project was built mainly using Flask/Python. We also explored how to extract chatbot logs from Stackdriver using GCP SDK. It is

Recently Certified Free Code Campers

Congratulations to the following:

- **Mucahit Bayrak** - Responsive Web Design
- **Sailaja Manukonda** - Responsive Web Design
- **Julia Koldorkina** - Responsive Web Design

Hope you continue your journey and help contribute to real world projects in the future!
